

Tooth Fairy El Hada de los Dientes

She is a character that displays beauty and harmony. Her sweet and charismatic smile reflects understanding and patience, attributes highly valued by the children. She has chosen a common mouse in the castle to become her close friend and assistant transforming him into the character Teethy Mouse with the aid of her **Magic Wand**. This fact shows her to be someone who praises human value regardless of creed, race or socio-economic status.

Being in charge of exchanging **milk teeth** for some money, she only visited the English-speaking families in the US, UK, Australia and some European countries. In the past, another mythical figure, *El Ratón de los Dientes* collected milk-teeth in families with Spanish culture and *La Petite Souris* in families with French culture. Now, fairy and mouse *act together* as collaborative preventive dentistry heroes around the world. They want to spare children from dental cavities and pain and keep a smile upon their faces.

The golden crown on her dress goes in harmony with her beauty. Its four circles represent the **4 permanent back teeth** that will make their appearance around 6 years of age; in the Crown's Parade illustration they are designated as the **four 6es** 👑. As **no shedding milk-tooth** will announce their debut, she conceived this new 'Coin of the 6 👑' tradition to celebrate them.

These Coins come as cut-outs, printed on the 'Crown of the 6es 👑'. Every time a 6 👑 shows up, children will leave one 'Coin of the 6 👑' under their pillow, that will function **'as a milk-tooth'** only that it is exchanged for a *double amount of money, plus a toothbrush, and perhaps even a 'surprise gift'*.

The Tooth Fairy's unique Magic Wand has a tooth brush at the top, highlighting the fact that maximizing oral hygiene really works wonders. It will not only prevent cavities, but the onset of gingivitis, therefore every child should *'brush every day and keep sugars at bay'*. She will devote her entire life to spread this preventive message all over the world. Her assistant Teethy Mouse will help her in this endeavor.

Emergency Coin for Lost Milk Teeth

...just place it under your pillow...
